KRAHN

What is

POLY?

(HDPE) Polyethylene

Made from purified blends of **recycled** plastics - the kind that come from milk and detergent bottles, for example.

Essentially **maintenance-free**, and requires no water proofing, staining, or other similar recurring maintenance other than the occasional washing with soap and water.

Exceptional resistance to moisture, ice, salt, insects, fading, cracking, warping, stains, and other hazards of environmental exposure.

High color stability UV systems will keep your chair looking vibrant for years, and may fade only slightly over its entire service life.

When you choose KRAHN, you choose a product that is recycled, a product that helps keep our planet clean and green.

KRAHN, the manufacturer of this product, warrants the covered product to be free of all defects in material and workmanship for 10 years residential use, or 5 years commercial use from the date of purchase. This warrant extends to the original buyer only. Within the period of this warranty, KRAHN will repair or replace, free of charge, any part providing defective in material or workmanship.

Provisions

All warranty and service must be performed by KRAHN.

Warranty only valid along with original proof of purchase.

All expenses related to replacing or repairing a defective part under this warranty shall be assumed by KRAHN except for the following expenses, which shall be assumed by the buyer.

Exclusions

This warranty does not apply to any costs, repair, or services for the following:

Service calls to correct the installation of product, or explain usage or instruction of the product to the buyer.

Repairs necessitated by use other than normal use.

Damage resulting from misuse, abuse, accidents, alterations, or improper installation.

Repairs necessitated by repairs made by anyone other than a KRAHN employee.

Polyethylene is a synthetic product and may fade or scratch slightly with prolonged exposure to sun or other earthly elements. Due to the nature of polyethylene and its properties, some expanding or contracting is normal, and is to be expected in extreme or harsh weather conditions and will not be considered defects in the material or workmanship and will not be covered under this warranty.

How to obtain warranty service

The buyer must notify KRAHN by one of the contact methods below of any defect, malfunction, or nonconformity promptly upon discovery. An authorized KRAHN employee may visit the buyers home for the purpose of repairing the defective product. Proof of purchase and/or defect will be required for service.

Care and Maintenance

Although no real maintenance is required for your chairs, there are a few easy and tried solutions for cleaning and caring for your KRAHN product.

Soap and water should be your first attempt, and will more often than not, be enough.

Pressure washers will remove the dirt and grime that can build up depending on where you keep your chairs. Be sure not to get too close, and always try it underneath first. It should look like new, year after year.

UV covers and waxes can help preserve the color and shine for the lifetime of the chair, which can be a long time! *Even sunblock works!*

Stronger **cleaners and solvents**, such as bleach/water mixture or chlorine, can also help remove tougher stains. Use at your own risk.

Stay tuned to our website and social media for more on care and cleaning solutions.

"Thank-you, to all our customers."
